Patient Advantages

- Our experienced, board certified providers have performed thousands of procedures. We are accredited by the American College of Radiology.
- These procedures are less invasive, less costly than surgery, and allow for shorter recover times.
- Patients are spared the pain, scarring and complications sometimes associated with open surgery.

Procedures

- Angiograms
- Peripheral arterial disease
- DVT treatment
- IVC filter placement/retrieval
- Ports
- Temporary and tunneled dialysis catheters
- Plasmapheresis catheters
